THE GLOBE: The Official Paper of Congress.

The Official Paper of Congress.

I PUBLISH new my annual Prospectured The Daily Globe, and The Congressional Globe and Appendix, to remind universions, and inform those who may desire to subscribe, that Congress will need on the first Monday of next December, when I shall resume publishing the above named papers. They have been published so long, that most public mus know their character, end therefore I doesn't needless to give a minute account of the kind of matter they will contain.

The Daily Globe will contain a report of the Debutes in both branches of Congress as taken down by reporters, equal, at least to any corps of short hand writers in this, or in any other country. A majority of them will, each, he able to report, cerbastim, fon thomand words an hour, while she have ago number of words spoken by fluent speakers marely exceeds serms thousand five hundred words an hour. When the debates of a day do not exceed forty-five columns, they will suppear in the Daily Globe of the next morning, which will contain, also, the news of the day, bogether with such editorial articles as may be suggested by passing events.

The Champeon and Globe, and Appendix will contain a re-RESEWABLE AT PLEASURE. IN THE WEEKLY. One Dottan per Square for the first, and First Cents for each

The Congressional Globe and Appendix will contain a report of all the Debates in Congress, revised by the speakers, the Michael of the President of the United Stries, the Annual Reports of the House of the Executive Departments, the Laws and passed during the session, and oppicus indexes to all. They will be printed on adouble royal sheet, intook farm, royal quarticales, each number containing sixteen pages. The whole will make, it is believed, at least 2,000 pages. This is acknowledged to be the chexpest work over sold in any country, whether a reprint or printed from minuscript copy, taking for date the average number of words it contains.

The coming seasines, will, without doubt, be unusually interesting because the debates will, in a great measure, be upon the soling of the President elect, and the Globe will be, as that been for many years past, the only source from which full detates of Congress can be obtained. Congress can be obtained The Congressional Globe and Appendix pass free through the mails of the United States, as will be seen by reading the fol-lowing Joint Resolution passed by Congress the 6th of August, Joint Resolution passed providing for the distribution of the Joint Resolution passed providing for the distribution of the With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bedder.

Lincoln and Compromise. The Springfield correspondent of the Cincinnati Enquirer writing from Lincoln's home on Monday

their actions are averse to say kind of an adjustment. They talk defiantly and threateningly to any
one of the party who is suspected of getting weak
in the knees. Nearly all the Republican politicians
in the State expect office under Mr. Lincoln, and
they are afraid to say a word that will not have a

On Tuesday night much alarm was produced by sweet sound to the treathent elect.

Mr. Lincoln's views being known, they are nearly all backing him up- Mr. Lincoln takes snuff—his party here sneeze. He is determined that he will not yield one tota of the Chicago Platform. His party have come to the same conclusion. We will have to wait until the expectants of public paps are have to wait until the expectants of public pap are isappointed, and then we may expect to hear some lonest sentiment from them.
It is a significant fact that the Republicans who

are on the most friendly terms with Mr. Lincoln, are beginning to denounce and read out of the party the Republicans who are willing to compromise. Greeley on the Crisis. The following extracts are from the N. Y. Tribune

of Monday: We hear that Mr. Cassius M. Clay is in Washington advocating the admission of New Mexico by way of soap to the Border States. As New Mexico must come in either as a Free State or as a secession State we don't perceive the excellence of this complicated parties of violence were committed. The mounted parties of the district were present, but it was impossition from this scheme to a compromise which means something; namely, the purchase by the Federal Government of all the slaves in the Border States, and their gradual emancipation? That is a measure which a man might advocrate with all his heart, and whose realization would benefit every-body. Besides, there is no secession hidden under it. Why won't some influential member of Con-gress, Mr. Crittenden or Mr. Bigler for instance, give their influence and their votes to the enactment of

this noble project? Mr. Gilmer of North Carolina made, for a Southern man in these silly times, a very sensible speech indeed, in Congress on Saturday. But he urged what is totally impossible namely, that the North ern people should consent to the permanent estabishment of slavery South of 36 deg. 30 min. Some members of Coopress may perhaps be brought to agree to such a proposition, but when it comes be-fore the people to be voted on by them, it will shrivel up and disappear. Besides, why perpetuate the davery agitation! It was settled on November 6. and ought never to be revived again as a national

A DONATION FOR INDIGENT SPINSTERS -A benevolent and eccentric maiden lady, Miss P. Townsend, by name, died recently in Boston. In her will she leaves \$20,000 to the Home for the Relief of the Indigent Females in Boston, and \$60,000 to be applied to the support of those females who, in legal phraseology, are called "spinsters," or single women. > DISTRES IN LONDON. - Late intelligence from London represents the distress prevailing in the British metropolis as fearful in exient. Indeed, it seems to prevail in a degree much more than proportionate to the extent of the population of Londen over other towns in the empire, and this must continued violation of the constitution by King Otho, and a revolution is not improbable. The King arise from the immense number of persons resident there, whose living is only procurable when the government, and tolerates no opposition. weather is moderate. There is a comboination here among the various commercial interests to injure the South. Many vessels lying in this port, which were about to start South, have been detained by the obstacless thrown in their way. The rate of insurance had been advanced to make a some companies from one-half to four per cent upon risks of this character, and some refuse to insure a cargo with State clearance. Some of the bankers have refused to purchase bills drawn against cotton thus shipped. Notwithstanding all this, Capt. REPUBLICAN EXCUSE FOR A "STANDING ARMY" MASHINGTON .- The New York Tribune gravely approunces (in the words of its Washington correspendent) that "Col. Hoger, of the army, formerly of South Carolins, is the chosen leader of the par-ty of gentlemen of the first families of Virginia, who have formed an organization for the purpose of seizing Washington by a coup de main." The publication of such canards is sufficient evidence that the Black Republicans want to get up a large "standing army" against the South. Indeed, the New York iTimes proclaims that in any event "Washington city should be held by the Federal Government if it requires a permanent camp of 100 000 men to held it." The Black Republicans seem to relish highly the idea of a military despotism. They would enslave themselves to free the

It is to be located by the New York, and will be known as the Vassar Female College, the originator and prinkeepsie. By some means it became known in the course of the afternoon, that the dook laborers intended to wisit Whitenhapel in a mass as soon as dusk set in, and that an attack would be made on the provision shops in that locality. This led to a general stutting up of the shops throughout the East End—a precaution highly necessary, for between 7 and 9 o'clock thousands congregated in the principal streets, and proceeded in a body from street to street. An attack was made upon many of the baker shops and eating houses, and every morsel of food was carried away. A great many thieves and dissipated characters mingled with the mob, and many serious ble for them to act against so large a bedy of people. To-night another attack is apprehended, and

On the 27th ult., as we learn from the Troy Budget, a lady residing in Albany, N., Y., visited some friends in Troy, intending to return home by the latest stage that evening. She missed that stage, and was compelled to remain with her Troy friends for the night. She retired to bed early in great distress about her two infants at home, one of whom was not yet wenned. In the night she got up in her sleep and walked to Albany in her night clothes, never waking until she had reached her own bedroom, and was sharply spaken to by her husband. As she had left her day clothes at Troy, her friends there must have been much astonished and alarmed at her disappearance. It is a query how any person, rendered unconscious by sleep, could walk so great a distance without wak
